PROFESSIONAL SUMMARY

Results-driven **Delivery and Project Manager** with 4+ years of progressive leadership in high-volume, revenue-critical operations. Designed and implemented a full KPI framework from scratch — tracking Calls per Agent, Bookings, Sales Productivity, and Operational Efficiency — that drove a **+141% increase in inbound productivity** and **doubled overall team efficiency** while simultaneously reducing headcount by 42%.

Proven ability to own delivery end-to-end: from stakeholder alignment with C-level VPs to daily SLA governance, team coaching, and data-driven continuous improvement. Proficient in Salesforce and Zendesk. Trilingual communicator (Spanish · English C2 · French B2) ready to lead distributed, global teams remotely from day one.

+141% Inbound CPA · OEI Doubled (+110%) · 42-Agent Team Led · ~$1.5M/mo Revenue · 3 Promotions in 4 yrs · Trilingual · Remote-First

PROFESSIONAL EXPERIENCE

Client Services Manager & Operations Lead
FarMar Call Centers · *Remote · BPO / SaaS Client Operations*
Aug 2021 — May 2025
3 yrs 9 mos

Led end-to-end delivery of a 42-agent distributed operations campaign, managing resource allocation, quality assurance, onboarding pipelines, and cross-functional stakeholder communication across operations, HR, and client-side leadership.

PROGRESSION: Agent → Jr. Lead → OPS Sr. Lead → **Head of Management** (3 promotions)

- **Built a full KPI framework from zero** — designed Inbound and Outbound Calls per Agent (ICPA / OCPA), Bookings per Agent (BPA), Sales Productivity Index (SPI), and Operational Efficiency Index (OEI) to replace ad-hoc monthly tracking with daily and weekly accountability cycles.
- **Drove +141% inbound productivity growth** (ICPA: 470 → 1,136 monthly calls/agent) in under 18 months — while reducing inbound headcount by 45% (42 → 23 agents), delivering dramatically more output with a leaner team structure.
- **Scaled outbound efficiency by +74%** (OCPA: 1,845 → 3,220 monthly calls/agent) simultaneously, maintaining productivity gains across both campaign types as the team scaled down.
- **Doubled overall Operational Efficiency (OEI +110%)** over 18 months by combining ICPA/OCPA growth with a +14% improvement in sales per agent.
- **Improved bookings productivity by +53%** (2,833 → 4,344 monthly bookings) — supporting pipeline generation, churn reduction, and higher conversion consistency.
- **Sustained $1.1M–$2.1M in monthly revenue contribution**, maintaining 15–28% of total client sales — even as total client revenue grew to a peak of $9.18M/month (Mar 2025).
- **Increased agent bonuses by +39%** ($45,968 → $64,045/period) by directly linking KPI improvements to compensation outcomes, driving motivation and retention.
- **Evolved SLA governance from monthly snapshots to daily and weekly accountability** — established and exceeded targets across all metrics, with recurring reporting to the client's Customer Experience and Sales VPs.
- **Developed and authored the Standard Operating Procedures (SOPs)** covering all tools and processes in the inbound and outbound campaign workflows — standardizing execution, reducing variability, and accelerating agent onboarding.

Human Resources Business Partner — North America
Honeywell Automotive de México · *Global Fortune 100 Company*
Feb 2019 — Jul 2019

- Managed HR operations for Honeywell's North America region using **PeopleSoft HRIS** — employee data, Apps interface assistance, and cross-border coordination across distributed teams.
- Gained early exposure to global project coordination, multicultural stakeholder management, and enterprise-scale operational processes in a Fortune 100 environment.

Field Operations Supervisor
National Institute for the Evaluation of Education (INEE) · *Mexican Federal Government*
Nov 2018

- Supervised execution of national teacher performance evaluations — coordinated field teams, ensured data integrity, and managed multi-site delivery under tight government timelines.

Operations Manual Author & Process Standardization Lead
Otra Oportunidad, A.C. · *Civil Association · Women's Rights & Social Services*
Jul 2018 — Nov 2018

- Partnered directly with the executive director to systematize the organization's **Comprehensive Care Model** — delivering a complete, cross-departmental Operations Manual in **under 5 months**, ahead of institutional timelines.
- Coordinated across **4 departments** (legal, educational, psychological, and social work) to document, standardize, and implement operating procedures end-to-end — ensuring holistic adoption across the shelter and external care site.
- Applied structured copy-editing and process design skills to translate complex, multi-disciplinary workflows into a clear, actionable manual used as the operational backbone of the organization.

Independent Researcher & Academic Consultant
Academia — *Social Sciences & Humanities · Freelance / Fully Remote*
Jun 2017 — Present

- Joined researchers across Latin America on concurrent project-based engagements — managing multiple stakeholders, deliverables, and deadlines fully remotely, demonstrating long-standing async work discipline.
- Published peer-reviewed book chapter (UNAM Press, 2022); thesis committee member; international colloquium presenter (UNAM, 2020); journal book review contributor (2019).

IMPACT BY THE NUMBERS

+141% Inbound Calls per Agent — core productivity KPI	**+110%** Operational Efficiency Index — team output doubled	**–42%** Headcount reduction while sustaining revenue growth	**+74%** Outbound Calls per Agent (OCPA) — parallel gain
+53% Bookings per period — pipeline & churn reduction	**+39%** Agent bonus per period — KPI tied to compensation	**$9.1M** Peak monthly client revenue supported (Mar 2025)	**15–28%** Sustained share of total client sales, full tenure
