PROFESSIONAL SUMMARY

Results-driven **Delivery and Project Manager** with 4+ years of progressive leadership in high-volume, revenue-critical operations. Designed and implemented a full KPI framework from scratch — tracking Calls per Agent, Bookings, Sales Productivity, and Operational Efficiency — that drove a **+141% increase in inbound productivity** and **doubled overall team efficiency** while simultaneously reducing headcount by 42%.

Proven ability to own delivery end-to-end: from stakeholder alignment with C-level VPs to daily SLA governance, team coaching, and data-driven continuous improvement. Proficient in Salesforce and Zendesk. Trilingual communicator (Spanish · English C2 · French B2) ready to lead distributed, global teams remotely from day one.

📈 +141% Inbound CPA · ⚡ OEI Doubled (+110%) · 👥 52-Agent Team Led · 💰 ~$1.5M/mo Revenue · 🏆 3 Promotions in 4 yrs · 🌎 Trilingual · Remote-First

PROFESSIONAL EXPERIENCE

Client Services Manager & Operations Lead
Aug 2021 — May 2025 · 3 yrs 9 mos

FarMar Call Centers · Remote · BPO / SaaS Client Operations

Career progression: Agent → Jr. Lead → OPS Sr. Lead → **Supervisor & Head of Management** (3 promotions in 4 years)

- **Built and owned a full KPI framework from zero** — designed Inbound and Outreach Calls per Agent (CPA), Bookings per Agent (BPA), Sales Productivity Index (SPI), and Operational Efficiency Index (OEI) to replace ad-hoc monthly tracking with daily and weekly accountability cycles.
- **Drove +141% inbound productivity growth** (CPA: 470 → 1,136 calls/agent) in under 18 months — while reducing inbound headcount by 45% (42 → 23 agents), delivering dramatically more output with a leaner team structure.
- **Scaled outreach efficiency by +74%** (OB CPA: 1,845 → 3,220 calls/agent) simultaneously, maintaining the productivity gains across both campaign types as the team scaled down.
- **Doubled overall Operational Efficiency (OEI +110%)** over 18 months by combining CPA growth with a +14% improvement in sales per agent — reducing total headcount by over 40% (89 → 52 agents) without compromising revenue output.
- **Improved bookings productivity by +53%** (2,833 → 4,344 bookings/period) — supporting pipeline generation, churn reduction, and higher conversion consistency across the campaign.
- **Sustained $1.1M–$2.1M in monthly revenue contribution**, maintaining the team's share of total client sales consistently between 15–28% — even as total LA client revenue grew to a peak of $9.18M/month (Mar 2025).
- **Increased agent bonuses by +39%** ($45,968 → $64,045/period) by directly linking KPI improvements to compensation outcomes, driving motivation and retention in a performance-based culture.
- **Evolved SLA governance from monthly snapshots to daily and weekly accountability** — established and exceeded targets across all tracked metrics, with recurring reporting to the client's Customer Experience and Sales VPs.
- Led end-to-end delivery of a 52-agent distributed operations campaign, managing resource allocation, quality assurance, onboarding pipelines, and cross-functional stakeholder communication across operations, HR, and client-side leadership.

Human Resources Business Partner — North America
Feb 2019 — Jul 2019

Honeywell Automotive de México · Global Fortune 100 Company

- Managed HR operations for Honeywell's North America region using **PeopleSoft HRIS** — employee data, compliance tracking, and cross-border coordination across distributed teams.
- Gained early exposure to global project coordination, multicultural stakeholder management, and enterprise-scale operational processes in a Fortune 100 environment.

Field Operations Supervisor
Nov 2018

National Institute for the Evaluation of Education (INEE) · Mexican Federal Government

- Supervised logistics and execution of national teacher performance evaluations — coordinated field teams, ensured data integrity, and managed multi-site delivery under tight government timelines.

Independent Researcher & Academic Consultant
Jun 2017 — Present

Academia — Social Sciences & Humanities · Freelance / Fully Remote

- Managed concurrent project-based engagements for researchers across Latin America — coordinating multiple stakeholders, deliverables, and deadlines fully remotely, demonstrating long-standing async work discipline.
- Published peer-reviewed book chapter (UNAM Press, 2022); thesis committee member; international colloquium presenter (UNAM, 2020); journal book review contributor (2019).
